### UNWINDER & REWINDER FOR EPSON C7500 PRINTERS

LABEL REWINDER (ASD1111-S0) - Epson C7500 printer - LABEL UNWINDER (ASS1111-S0)  
(Not included)

The new Unwinding/Rewinding system for Epson C7500 Label Printer can handle media up to 127mm wide and unwind/rewind label rolls having outside diameter up to 250mm. Units are equipped with a 3" or adjustable core holder (40-118mm).

The printer feet should fit into notches on the printer plate. This way the correct unwinding / rewinding operations are guaranteed and units are safely connected to the printer.

An external power supply 100/240VAC - 2.5A  at 24V allows an electronic circuit to provide, through the tension arm, the adjustment of the rotation speed and rotation direction. A 2A fuse is used as protection.

The unwinder and rewinder for Epson C7500 printers have two types of speed adjustments: it is possible to set the main speed through a knob and the tension arm automatically adjusts the speed from zero, up to the desired speed. When the roll runs out, each device stops beeping.

#### LABEL UNWINDER

*The position of the tension arm is calibrated as follows:*

- When the printer forwards the media for printing, the tension arm goes up, the device unwinds the media.
- When the tension arm is in the middle position, the device is idle.
- When the printer pulls back the media, the tension arm goes down, the device rewinds it.

#### LABEL REWINDER

*The position of the tension arm is calibrated as follows:*

- When the printer forwards the media for printing, the tension arm goes down, the device rewinds the media.
- When the tension arm is in the middle position, the device is idle.
- When the printer pulls back the media, the tension arm goes up, the device unwinds it.

#### LABEL UNWINDER

ASS1111-S0	40-118mm adjustable core holder
ASS1114-S0	3" fixed core holder

#### LABEL REWINDER

ASD1111-S0	40-118mm adjustable core holder
ASD1114-S0	3" fixed core holder
