The PC Series workstations with the PowerSwap Nucleus<sup>®</sup> lithium power system is the first of its kind designed for industrial environments. This rugged unit provides quiet, seamless AC power for 8-12+ hours at a time. Once the battery charge is depleted, simply swap it with a fully charged one in a matter of seconds.

## Outstanding Benefits:

- Heavy-duty, robust workstation, now with less weight (each battery weighs only 11 lbs.)
- Plug & play power system - no tools, heavy lifting or maintenance personnel required for battery changes
- Hot swappable - never run out of battery power or lose a terminal session
- Ideal for multiple shifts or 24/7 operation
- Extreme longevity - 5 to 7 year battery life (or 3,000 cycles)
- Wide variety of optional accessories available for a highly versatile workstation

## System Consists of:

- PC Series workstation with battery docking station
- 2 or 4 lithium battery packs
- Battery charging station

New & improved casters provide 50% improvement in rolling force.
