## Mini, yet mighty power system that can turn an ordinary cart into a productivity center

The PowerSwap Nucleus® Mini power system is designed to expand productivity into all spaces of the warehouse/DC, production floor and other industrial environments. This rugged, yet lightweight battery system provides quiet, seamless AC power for 4-8 hours at a time. Once the battery charge is depleted, simply swap it with a fully charged one in a matter of seconds enabling a 24/7 operation.

## Outstanding benefits

- › Reduce excess worker motion, product transportation, and touches in your shipping/receiving, quality assurance, and material replenishment processes
- › Interchangeable – designed to mount to your own industrial cart, picking cart or Newcastle EC Series workstation
- › Plug & play power system – no tools, heavy lifting or maintenance personnel required for battery changes
- › Extreme longevity – 5 to 7 year battery life (or 3,000 cycles)
- › Ideal for multiple shifts or 24/7 operation
- › Safe & stable battery chemistry
