

## Why Be Content with This...

Complex Two-Step Printing

Preprinted Label

+

Variable Data

Two-Step Label with Potential for Misalignment

- Potential compliance risks from alignment issues
- Changes in diamond quantity and placement can create waste
- Unattractive redactions and challenges with small fonts
- Potential challenges with label durability

## When You Can Have This...

Simple On-Demand Color Printing

Hi-Res Color and Variable Data Printed in One Step

- Print color and variable data in one step
- On-demand printing can boost efficiency and minimize waste
- High-resolution output for professional images and legibility
- Extremely durable labels—BS 5609 Certified\*

Andy Scherz  
Product Manager  
Epson America, Inc.

\*ColorWorks CW-C6000/C6500 inkjet printers with UltraChrome® DL pigment ink, used in combination with Neenah Kimdura® poly media or Avery Dennison Fasson® 3.5M Matte WH Syn Paper WBIJS4600/50#SCK (Spec 79724), have both been BS 5609 certified.

## ColorWorks™

### On-Demand Color Label Printers

See them in action.

## Designed for Ease of Use

- Hassle-free—no ribbons or thermal printheads to replace
- Easy thermal replacement—native ZPL II®, Windows®, Mac®, SAP® and Linux®
- Powerful remote management utility

## Powered by PrecisionCore®

Advanced printing technology that is simple, smart and clean.

- Simplified for reliable performance
- Highly scalable design enables outstanding image quality
- Heat-Free technology supports low power consumption

<sup>1</sup> Printing in Max. Speed Mode, 300 x 600 dpi resolution, 4" (101.6 mm) print width. Print speeds are based on the print engine speed only. Total throughput time for any label depends on factors including label size, file size, print resolution, speed of data transmission, etc. | <sup>2</sup> Printing in Max. Speed Mode, 300 x 600 dpi, 3.6" (92 mm) print width. | <sup>3</sup> Printing in full 1200 x 600 resolution. | <sup>4</sup> Part of the ink from the first cartridges/packs is used for initializing the printer. Ink usage will vary considerably based on images printed, print settings, paper type, frequency of use, temperature and humidity. Variance may be more pronounced when printing infrequently or predominantly with one ink color. Ink is used for printing and printer maintenance, and all colors must be available for printing. For print quality, a variable amount of ink remains after the "replace ink" indicator comes on. | <sup>5</sup> Product comes with a limited warranty with the option to purchase extended service plans up to a total of 5 years of continuous coverage. Limited warranty length varies by model.
