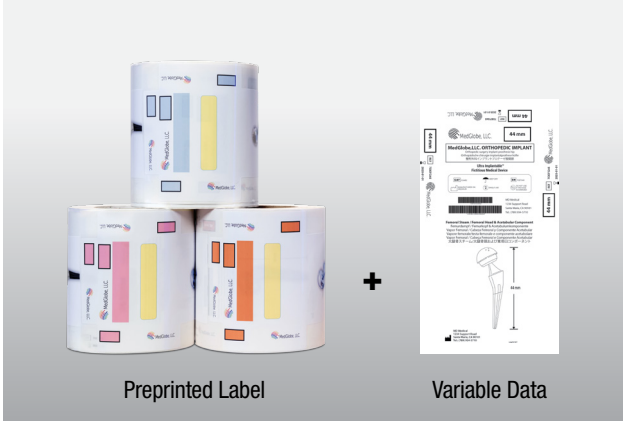
EPSON®

Maximize Flexibility and Minimize Cost with On-Demand Color Labels

Why Be Content with This...
Complex Two-Step Printing



- Costly preprinting required
- High minimum order quantities
- Possible misalignment during printing
- Potential inventory challenges and label waste

When You Can Have This...
Simple On-Demand Color Printing

- Color and variable data printed in one step
- Print what you need when you need it
- One-step print process eliminates misalignment
- Greatly minimize inventory and label waste

ColorWorks™ | On-Demand Color Label Printers

1 Printing in Max. Speed Mode, 300 × 600 dpi resolution, 4" (101.6 mm) print width. Print speeds are based on the print engine speed only. Total throughput time for any label depends on factors including label size, file size, print resolution, speed of data transmission, etc. | **2** Printing in Max. Speed Mode, 300 x 600 dpi, 3.6" (92 mm) print width. | **3** Printing in full 1200 x 600 resolution. | **4** Part of the ink from the first cartridges/packs is used for initializing the printer. Ink usage will vary considerably based on images printed, print settings, paper type, frequency of use, temperature and humidity. Variance may be more pronounced when printing infrequently or predominantly with one ink color. Ink is used for printing and printer maintenance, and all colors must be available for printing. For print quality, a variable amount of ink remains after the "replace ink" indicator comes on. | **5** Product comes with a limited warranty with the option to purchase extended service plans up to a total of 5 years of continuous coverage. Limited warranty length varies by model.
