## Color printer built for reliability and powerful productivity.

**Lowest power consumption in its class<sup>1</sup>** — powered by PrecisionCore Heat-Free® technology, the next generation of inkjet printing technology

**Engineered for reliability** — recommended monthly print volume of 5,000 pages

**Powerful business productivity** — print speed of 25 ISO ppm (black/color)<sup>†</sup> with virtually no warmup time; fast first page out for quick and seamless printing

**Minimize your interventions** — Replaceable Ink Pack System lets you print up to 5,000 ISO pages with replacement ink packs<sup>2</sup>; 1,830-sheet capacity with three optional trays

**High performance and great value** — save up to 25 percent on replacement ink vs. color laser toner<sup>3</sup>

**Open-platform ready** — seamless integration with enterprise applications such as PaperCut® MF and other workflows; supports PCL<sup>4</sup> and PostScript®

**Compatible with Epson® Solutions Suite** — including Epson Remote Services, Epson Device Admin and Epson Print Admin

**Pro-quality results to make your business look its best** — with DURABrite® Ultra Ink, achieve razor-sharp text and brilliant colors on a wide variety of media

**Enabled for remote printer data collection** — compatible with MPS software solutions from PrintFleet®, ECI FMAudit® and others

*Designed for use exclusively with Epson® ink packs\*.*

\*This product uses only genuine Epson-brand ink packs. Other brands of ink packs and ink supplies are not compatible and, even if described as compatible, may not function properly or at all.

<sup>†</sup> Black and color print speeds are measured in accordance with ISO/IEC 24734. Actual print times will vary based on factors including system configuration, software and page complexity. For more information, visit [www.epson.com/printspeed](http://www.epson.com/printspeed). | <sup>1</sup> Compared to similarly featured color laser printers with speeds of 30 ppm or less based on industry-available data as of March 2022. Actual power savings will vary by product model and usage. | <sup>2</sup> Replacement ink pack yields are estimated based on ISO/IEC 24711 test in Default Mode printing continuously. Ink pack yields vary considerably for reasons including images printed, print settings, temperature and humidity. Yields may be lower when printing infrequently or predominantly with one ink color. All ink colors are used for printing and printer maintenance, and all colors have to be installed for printing. For print quality, part of the ink from the included ink packs is used for printer startup and a variable amount of ink remains in the ink pack after the "replace ink pack" signal. For details, see [www.epson.com/inkinfo](http://www.epson.com/inkinfo). | <sup>3</sup> Actual savings will vary based on print tasks, print volumes and usage conditions. Savings comparison based on the purchase cost of replacement ink packs and the cost of enough color toner cartridges to achieve the total page yields of the ink packs using the manufacturers' online prices and yields for the highest-capacity toner cartridges for the best-selling similarly featured color laser printers with speeds of 30 ppm or less per industry-available data as of March 2022. | <sup>4</sup> Not all media types are supported for PCL printing. | <sup>5</sup> FPOT is measured on letter-size paper in accordance with ISO/IEC 17629. FSOT is measured on letter-size paper in accordance with ISO/IEC 24734. | <sup>6</sup> Monthly duty cycle is the highest duty a user could expect in a month, based on near-constant operation of a device of this kind. It is not recommended that the device be run at this duty. For best device performance, run the device at the recommended monthly page volume. | <sup>7</sup> Most features require an Internet connection to the printer, as well as an Internet- and/or email-enabled device. For a list of Epson Connect enabled printers and compatible devices and apps, visit [www.epson.com/connect](http://www.epson.com/connect). | <sup>8</sup> Wi-Fi CERTIFIED™; level of performance subject to the range of the router being used. Wi-Fi Direct may require printer software. | <sup>9</sup> Only printing is supported under Windows Server OS. | <sup>10</sup> Some applications and/or functions may not be supported under Mac OS X and macOS. | <sup>11</sup> Based on ENERGY STAR TEC measurement methodology; 288 prints/day; actual electricity consumption may vary depending on printer use. For more information, see [www.energystar.gov](http://www.energystar.gov). | <sup>12</sup> RAM size definition is the total amount of RAM memory capacity inside the device, regardless of memory use. | <sup>13</sup> Internet access is required to install Mac OS X and macOS drivers and software. | <sup>14</sup> For convenient and reasonable recycling options, visit [www.epson.com/recycle](http://www.epson.com/recycle). | <sup>15</sup> SmartWay is an innovative partnership of the U.S. Environmental Protection Agency that reduces greenhouse gases and other air pollutants and improves fuel efficiency. | <sup>16</sup> See individual service plan for details.
