

Software Converter Directions

- The following is the link for the Software to NiceLabel Label Converter Website:
 - <https://lpsconversion.onnicelabel.com/>
- Before uploading to the converter, ensure that:
 - All Software label (.lwl) files have been placed in a folder named “Labels”, and do **not** include the quotation marks. This **must** be the name of the non-compressed folder as it is how the converter finds and recognizes the templates.
 - The user has access to an email address that you can access to enter in the Software to NiceLabel Label Converter so that it can email it a .zip file to it. This is how retrieval of the converted labels are received.

Step 1

- Right-click on the folder named “Labels” that includes all templates set to be converted to NiceLabel conversion and select the option compress it to a .zip file.

Step 2

- Rename the compressed .zip file to “GetLPSArtifacts”, do **not** include the quotation marks. This **must** be the name of the compressed folder as it is how the converter finds and recognizes the templates.

Step 3

- Navigate via a web browser (Google Chrome, Microsoft Edge, FireFox etc.) to the Software to NiceLabel Label Converter.

- <https://lpsconversion.onnicelabel.com/>

Step 4

- Select the “GetLPSArtifacts” .zip file in the related prompt to choose a file.
 - **Note:** The Loftware to NiceLabel Label Converter does have a restriction on file size. If your .zip file exceeds this internal limit, you will receive an automatic response and will need to start the process again. If your file appears to be of the larger size, separate the .lwl files into two separate folders and submit to the converter two separate zip files.
- Enter the data into the required fields of Customer and Project, this is not required to be accurate but is required to send submissions.
- Enter the email address you would like to receive the converted NiceLabel files.
- There are several extra options below the required prompts, it is recommended that the default options are left checked.
- Press the Submit Button at the bottom of the web page, you will receive an automatic response to the email address entered before submission.
 - **Note:** Conversion time depends on the size of the file submitted.
