

The warehouse-inspired innovation that's changing retail for good

With floor space at a premium and lost sales a perennial peak-season problem, **Newcastle's new CheckMate 1000** gives retailers the ability to rethink how they optimize their POS stations by location, count, seasonality and more to maximize checkout speed and convenience, while eliminating wasted space and lost sales.

Outstanding benefits:

- › **Customized to fit your brand:** Plenty of real estate to add company branding and make it yours
- › **Never-quit power:** The most advanced systems to power a receipt printer, cash drawer, monitor, tablet, CC terminal, and more
- › **Purpose-built and designed to last:** Compact, lightweight, sustainable, and loaded with features like drawers, winged shelves, and storage galore
